

I am writing in response to your proposed expansion of LPFM stations and their priority over current FM translator service. I am concerned that this proposal will eliminate the regional services we currently receive from stations such as K-LOVE. This station serves as a resource for Christians in both large cities and small rural areas that cannot otherwise receive the unique programs aired by K-LOVE. Not only does K-LOVE provide Christian music, but also acts as an announcer for local events, aids in helping with outreach programs targeting needy individuals, and provides comfort and help for individuals in crisis situations. K-LOVE is driven and funded by volunteers and donations. It is a unique station whose services will be irreplaceable if you choose to allow LPFM stations to have priority over the current FM translator service. Please reconsider this proposal.
